Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests if the amount exceeds Rs. 1,000.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to re-sell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Act. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In case of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price, as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the

price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than 15th May 1940. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed, as early as possible, and in no case should it be allowed to remain longer than 90 days after 30th June 1940. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments from the date of their falling due up to the date of payment at 6¼ per cent per annum.

Such a deposit in cash will not carry any interest.

4. The tenders will be opened in the presence of such tenderers who wish to be present on 23rd November 1939 at Kolar. The final acceptance of the tender will rest with the Executive Engineer, who does not bind himself to accept the lowest or any tender, or to assign any reason whatever for the rejection of any.

Within eight days of the acceptance of the tender, the successful tenderer will be required to execute an agreement in the departmental Schedule Contract Form, for the due fulfilment of the contract, and for the execution of all items of work in accordance with the Bombay Specifications. A reserve of 5 per cent will be withheld in the work bills of the contractor and the same repaid after the due fulfilment of the contract.

6. Failure to comply with the condition 5 above or to agree to carry out the work in accordance with the specifications and agreements in force, will entail forfeiture of the earnest money.

This shall be final and legally binding on the tenderer.

16. The quantities given in the schedule are only approximate and the drawings shown to the contractor are only tentative and are liable to alterations, omissions, deductions or additions, at the discretion of the Executive Engineer or his representative and may be due to any reasons whatsoever. SPECIFICATION FOR LUMINAIRES FOR SERIES CIRCUITS OPERATING ON A CONSTANT CURRENT OF 5·5 AMPERS.

The luminaires covered by this specification shall be suitable for installation in residential areas, business streets and outlying districts, where the lighting is by series system on a constant current of 5·5 ampers. These luminaires shall be simple in design and sha l have the important feature of all parts being interchangeable. They shall be such that the changes in lamps are readily accomplished to meet all requirements that may develop from time to time

The luminaires shall primarily consist of a cast iron hood, wet-process porcelain insulator, series socket, fire enamelled, radial wave reflector with reflector holder, etc. The main insulator shall be made of wet-process porcelain and shall be finished with coloured glaze, providing high mechanical and dielectric strength and shall be equipped with non-ferrous contact parts and supporting elements.

The luminaires shall be such that a flexible and serviceable arrangement is provided for supporting either sheet metal or cast iron reflectors with glass-ware to the insulator without the use of adoptors. The method of fixing shall be such that the clamping arrangement shall not only form a firm support to the reflector, but also act as a protector for the insulator, thus eliminating the possible radial stress on the insulator. The luminaires shall be provided with suitable sheet metal reflectors made of high grade, enamelled steel and finished in white vitreous fire enamel on the reflecting surface and a dark coloured vitreous enamel fire on the outside surface. The reflector shall be designed such that the contour increases its strength and prevents flexing of the metal and consequent chipping of the enamel.

The main insulator shall be of sufficient size to utilise either 5⅜″ or 7″ light centre lamps in reflector position. The luminaire, when tested in accordance with the B.E.S.A. or A.I.E.E. wet test requirements shall show a start of static leakage above 14 K.V. and flash-over above 28 K.V.

The series socket shall be designed with the contacts shell and prongs, with interchangeable porcelain or composition shells. The design must be such that the shell is capable of being easily removed for replacements. The prongs shall be constructed from a single piece of metal from the clips holding the film cut out direct to the lamps' base, so as to reduce the contact resistance. All metal parts shall be of bronze or copper nickle-plated on an equivalent good quality material. The sockets shall be designed for a continuous operation on a 10 ampere circuit.

The series receptacles shall be provided with contact springs so arranged that the series circuit is not interrupted on removal or insertion of the socket. One set of springs shall always be in contact with the socket prongs or be short-circuited.

The adopters shall be for operating on a medium screw base lamp from a mogul socket. A mogul socket extension of 2½″ shall be available for operating 7″ light centre lamps in luminaires designed for 9½″ light centre lamps.

The film cut outs to be used in conjunction with these series luminaires shall be designed to meet the requirements for use on series street lighting systems, with lamps ranging from 60 C.P. to 250 C.P. These film cut outs shall be available in special ranges with varying break-down voltage limits in order to meet all of the applications. The film cut outs shall be of either copper oxide disk or the magazine film type.

Full details of the various components, with all the constructional features of the entire luminaire with illustrative literature must be submitted along with the tender.

PRESS COMMUNIQUE.

Notification Camp Mysore, dated 24th October 1939.

VICTORIA RUPEES.

Representations have been made to Government at the Representative Assembly, Dasara Session, 1939, to the effect that misapprehension exists in regard to the acceptability of Victoria Rupees as legal tender, in spite of previous announcements explaining the position in this behalf. In a notification dated 7th October 1938, the Comptroller to Government, published for general information a *communique* that was issued by the Controller of Currency on 15th July 1937, which is reproduced below:—

"In accordance with a recent decision, Victoria Rupees are not ordinarily reissued from treasuries or from Banks which transact Government business; and these rupee are thus being gradually replaced by coins of more recent mintage. It is understood that in some districts this decision had led to a belief that Victoria Rupees are no longer legal tender. This belief is entirely erroneous. Victoria Rupees are exchangeable at their full face value and there is no intention of altering the existing position in this respect.—(Sd.) M. VIRARAJA URS,
Offg. *Comptroller.*"

It may be reiterated that these Rupees still continue to be legal tender and are exchangeable at their full face value in any Treasury in the State and will be freely accepted in payment of Government dues by Offices, Government Institutions, Municipalities, Commercial and other quasi-Government Institutions, etc., etc., subject only to the provisions of the Indian Coinage Act, *viz.*, that the coins are not otherwise defective, sweated or counterfeit or too much diminished in standard weight.

The public need, therefore, have no apprehensions in freely accepting these coins at their face value.

S. RANGA IYER,
Publicity Officer to Government.

PRESS COMMUNIQUE.

Notification Camp Mysore, dated 24*th October* 1939.

VICTORIA RUPEES.

Representations have been made to Government at the Representative Assembly, Dasara Session, 1939, to the effect that misapprehension exists in regard to the acceptability of Victoria Rupees as legal tender, in spite of previous announcements explaining the position in this behalf. In a notification, dated 7th October 1938, the Comptroller to Government, published for general information a *communique* that was issued by the Controller of Currency on 15th July 1937, which is reproduced below :—

"In accordance with a recent decision, Victoria Rupees are not ordinarily reissued from treasuries or from Banks which transact Government business, and these rupee are thus being gradually replaced by coins of more recent mintage. It is understood that in some districts this decision had led to a belief that Victoria Rupees are no longer legal tender. This belief is entirely erroneous. Victoria Rupees are exchangeable at their full face value and there is no intention of altering the existing position in this respect.—(Sd.) M. VIRARAJA URS,

Offg. *Comptroller.*"

It may be reiterated that these Rupees still continue to be legal tender and are exchangeable at their full face value in any Treasury in the State and will be freely accepted in payment of Government dues by Offices, Government Institutions, Municipalities, Commercial and other quasi-Government Institutions, etc., etc., subject only to the provisions of the Indian Coinage Act, *viz.*, that the coins are not otherwise defective, sweated or counterfeit or too much diminished in standard weight.

The public need, therefore, have no apprehensions in freely accepting these coins at their face value.

The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 (*supra*). The name of the tenderer should also be superscribed on the sealed cover.

PRESS COMMUNIQUE.

Notification Camp Mysore, dated 24*th October* 1939.

VICTORIA RUPEES.

Representations have been made to Government at the Representative Assembly, Dasara Session, 1939, to the effect that misapprehension exists in regard to the acceptability of Victoria Rupees as legal tender, in spite of previous announcements explaining the position in this behalf. In a notification, dated 7th October 1938, the Comptroller to Government, published for general information a *communique* that was issued by the Controller of Currency on 15th July 1937, which is reproduced below :—

"In accordance with a recent decision, Victoria Rupees are not ordinarily reissued from treasuries or from Banks which transact Government business, and these rupee are thus being gradually replaced by coins of more recent mintage. It is understood that in some districts this decision had led to a belief that Victoria Rupees are no longer legal tender. This belief is entirely erroneous. Victoria Rupees are exchangeable at their full face value and there is no intention of altering the existing position in this respect.—(Sd.) M. VIRARAJA URS,
Offg. *Comptroller.*"

It may be reiterated that these Rupees still continue to be legal tender and are exchangeable at their full face value in any Treasury in the State and will be freely accepted in payment of Government dues by

Offices, Government Institutions, Municipalities, Commercial and other quasi-Government Institutions, etc., etc., subject only to the provisions of the Indian Coinage Act, *viz.*, that the coins are not otherwise defective, sweated or counterfeit or too much diminished in standard weight.

The public need, therefore, have no apprehensions in freely accepting these coins at their face value.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale. But defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, this deposit will not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. The sale is subject to the confirmation of the Conservator of Forests if the amount exceeds Rs. 1,000 and to that of the District Forest Officer in other cases.

5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Act. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of notice of confirmation of the sale, whichever is later. The moneys shall be paid into such treasury as the District Forest Officer may direct, within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, including the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after 15th December 1939. Timber not removed after purchase will remain in the depot at the risk of purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

13. Interest will be charged on all belated payments at 6¼ per cent per annum from the date of their falling due up to the date of payment.

SHORT REELING OF COTTON YARN.

It has been brought to the notice of Government that the practice of selling to handloom weavers in the State short reeled yarn and yarn of a reduced length and of a coarser count than that marked on the bundle is prevalent among some of the dealers in cotton yarn, resulting in the local handloom weavers, most of them illiterate and ignorant, being put to considerable hardship and loss. With a view to preventing such malpractices, the attention of the dealers in cotton yarn is drawn to the following provisions of the Mysore Merchandise Act and Rules framed thereunder :—

"*Extract of Sections 6 and 7 of Act No. I of 1892 (An Act to amend the Law relating to Fraudulent Marks on Merchandise).*

6. If a person applies a false trade description to goods, he shall, subject to the provisions of this Act, and unless he proves that he acted without intent to defraud be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in the case of a second or subsequent conviction, with imprisonment which may extend to one year, or with fine, or with both.

7. If a person sells, or exposes or has in his possession for sale or any purpose of trade or manufacture, any goods or things to which a false trade description is applied, he shall, unless he proves—

(*a*) that, having taken all reasonable precautions against committing an offence against this section, he had at the time of the commission of the alleged offence, no reason to suspect the genuineness of the trade description, and

(*b*) that, on demand made by or on behalf of the prosecutor, he gave all the information in his power with respect to the persons from whom he obtained such goods or things, or

(*c*) that otherwise he had acted innocently, be punished with imprisonment for a term which may extend to three months or with fine which may extend to two hundred rupees, and in case of a second or subsequent conviction, with imprisonment which may extend to one year, or with fine, or with both.

Extract from Notification No. 7500—Legis. 93, dated 29th December 1899.

4. A trade description of count or number, length or weight applied to grey or bleached cotton *yarn*, shall not be deemed to be false in a material respect unless—

(*a*) the described count or number is greater or less than the actual count or number by more than five per cent, provided that the average count of the whole of the yarn in question is not greater or less than the described count, or

(*b*) the average length of the whole number of hanks in a bundle is less than 840 yards, or

(*c*) in a bundle of yarn of any count under 50, described as being 10 lbs. in weight, the number of knots of twenty hanks each is not half of, the number of knots of ten hanks each is not the same as, and the number of knots of five hanks is not double, the described count or number of the yarn, or

(*d*) in a bundle of yarn of any count under 50 described as being 5 lbs. in weight, the number of knots of 20 hanks each is not a quarter of the described count or number of the yarn, or

(*e*) in a bundle of yarn of any count from 50 upwards, the number of knots of twenty hanks each is not half, or the number of knots of forty hanks each is not a quarter when the described weight is 10 lbs., and is not a quarter or an eighth, as the case may be when the described weight is 5 lbs. of the count or the number of the yarn, or

(*f*) in the case of bleached yarn, the described weight exceeds the actual weight by more than—

7½	per cent in	counts from 1 to 8	
5	do	from above 8 to 18	
4	do	do	18 to 30
2½	do	do	30 to 80

5. A trade description of count or number applied to a bundle of *dyed cotton yarn*, shall be accepted as indicating length only, the hank being taken to measure 840 yards, and it shall be deemed to be false in a material respect if the average length of the hanks in a bundle is less than 819 yards.

6. A trade description of length applied to *thread of any kind* (of cotton, wool, flax or silk) shall not be deemed to be false in a material respect unless it exceeds the actual length by more than one per cent.

7. The dimensions of goods on which their length or width is stamped shall be determined by measurement in imperial yards of 36 inches."

Government consider it desirable to draw the attention of the trade to the provisions of the Act in regard to the short reeling of cotton yarn. Dealers in yarn are warned that they should see that the correct count is marked on the label of each bundle before yarn is sold to handloom weavers lest they should become liable under Section 7 of the Act. The word 'Hank' is taken to mean, so far as *grey yarn* is concerned, a measure of 840 yards and is a 'trade description' of that measure and that measure only—(*Vide* Section i (2) of Merchandise Marks Act) and that any deflection beyond the limits of variation in the stand rd length as allowed in the rules, would attract the provision of the Mysore Merchandise Act and of the Indian Penal Code.

Yarn is ordinarily made up in 5 or 10 lb. bundles containing a certain number of knots which in turn contain a certain number of hanks. The statutory length of the hank is 840 yards.

The standard measure for yarn is the relation of length to weight which is known as the count. The unit of count is 1 hank to 1 lb. A count is the number of hanks of 840 yards, required to make up a pound weight of yarn. The trade should clearly note that the units are the hank and the count and therefore that in the make-up of yarn in bundles, the number of hanks and knots should have a relationship to the count and weight and that any variation from the statutory length of the hank, except as provided for in the rules under the Mysore Merchandise Act, would be a false description.

In order to enforce a uniform standard in the interest both of the handloom weaver and the honest yarn manufacturer, the Government have decided to take such steps as are open to Government to check the malpractices complained of. They have accordingly ordered the Director of Industries and Commerce to launch prosecutions against those who offend the provisions of the law in this regard. Government trust that the illegal practices will cease at once.

S. RANGA IYER,
Publicity Officer to Government.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale, but defaulters to the department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, full value thereof will be accepted if tendered on the spot and the payment of deposit in such cases will not be insisted upon.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. 5. After conclusion of the sale, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of the one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to re-sell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter, on account of loss from resale, shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Act. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price, as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of Land Revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within thirty days after the date of sale or within fifteen days after the date of notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000 provided the full value is paid not later than the 15th May 1940. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

Ordinarily, no extension of time will be given for the payment of any amount, but if any amount is permitted to be paid after the due date, interest will be charged thereon at the rate in force.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser, in the manner prescribed, for default of payment of one-tenth value in clause 5 *supra*.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed, as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The rates for such items may be entered in a separate schedule with date and reasons for the same. When lumpsum provisions are shown in the schedule of quantities the contractor will be paid at either his tendered rate for each item or the prevailing schedule of rates in the Division at the discretion of the Executive Engineer.

11. No alterations which are made by the tenderers in the tender form in the nomenclature of the items of work will be recognised and if corrections are made, the tenders are liable to rejection.

15. When once the rates tendered have been accepted, they will not be revised under any circumstances. In regard to items of work not tendered, the rates for the same will be calculated by the Executive Engineer on the basis of current rates for materials and labour with a contractor's profit of 5 per cent as may be approved by the Superintending Engineer. This shall be final and legally binding on the tenderer.

16. The quantities given in the schedule are only approximate and the drawings shown to the contractor are only tentative and are liable to alterations, omissions, deductions or additions, at the discretion of the Executive Engineer or his representative and may be due to any reasons whatsoever. The tendered rates will hold good for any quantity, whether higher or lower than those given in the enclosed schedule.

17. The works should be completed and handed over in a tidy condition to the Public Works Department by the end of June 1940, failing which the Executive Engineer may, at his discretion, levy a penalty of Rs. 5 per day which will ordinarily be calculated at 12 per cent per annum on the total outlay as liquidated damages for non-fulfilment of contract, and will be recovered from the contractor's outstandings for the period exceeded by him beyond the time fixed and until the work is completed and handed over.

18. In all matters of disputes of any kind not specially provided for in the agreement or of rates, penalties, measurements, quality of work, etc., the decision of the Chief or the Superintending Engineer shall be final and legally binding.

19. No claim for damages for delays caused by officers of the department in the execution of the work will be considered, whatever may be the reasons for such delays. Contractors should bear this in mind when tendering for the work. Extension of time due to delays caused by the departmental officers will, however, be considered on the merits of each case.

20. The contract should not be sublet.

21. All materials, tools and plant and machinery that will be supplied by the Executive Engineer in the interest of the work shall be accepted by the tenderer at the rates fixed by the Executive Engineer. The earnest money of the successful tenderer will be retained as security deposit for due fulfilment of the contract. Such a deposit in cash will not carry any interest.

4. The tenders will be opened in the presence of such tenderers who wish to be present on 2nd January 1940, at Mandya Division. Within eight days of the acceptance of the tender, the successful tenderer will be required to execute an agreement in the departmental schedule contract form, for the due fulfilment of the contract, and for the execution of all items of work in accordance with the Bombay Specifications (1931) and also furnish a security deposit of Rs. 185 in addition to earnest money.

6. Failure to comply with the condition 5 above, or to agree to carry out the work in accordance with the specifications and agreements in force, will entail forfeiture of the earnest money.

7. The earnest money of rejected tenders will be returned on submission of the receipt originally granted, along with an application to the Executive Engineer.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

To

The Firms dealing in Oil Circuit Breakers.

Enquiry No. 3828.

OIL CIRCUIT BREAKERS FOR KOLAR GOLD FIELDS.

GENTLEMEN,

I write to request you to quote your best prices and the earliest time of delivery for the following materials :—

Three Oil Circuit Breakers, triple pole, single throw, 15,000 volts, 600 amperes capacity, having an interrupting capacity of not less than 75,000 KVA, complete with solenoid operating mechanism, 125 volts D.C. with closing coil, trip coil, control relay, terminals and auxiliary switches with frame work complete for cell mounting.

The general design and dimension shall be suitable for being installed in the low tension switch cells as shown in the sketch and drawing No. K. 139 and 142, copies of which will be sent on request.

The materials should conform to the following specifications :—

The switchgear should be non-oil throwing type with silver to silver main contacts, easily renewable arcing contacts and equipped with oil blast baffles and Herkolite bushings. The switchgear should be equipped with solenoid operating machanism for distant control 110-125 volts D.C. and to be equipped with modern control relays, so that if the closing of the breaker results in the operation of protective relays, the latter will energise the release coil of the control relay as well as trip the coil of the breaker. When the contacts of the relay are opened the closing coil has to be de-energised and the breaker should be quickly opened to prevent the pumping of the oil circuit breaker, even if the switch is held closed.

The switch should be suitable for mounting on the low tension switch cell wall, back to back, as per drawings K. 139 and 142.

The control relays for the oil circuit breaker should be equipped with trip-free toggle-mechanism, an auxiliary release coil for tripping the main contacts free from operating coil and resister internally mounted. The relays should be equipped with heavy duty contacts and should be suitable for distant control D.C. operating voltage of 110-125.

Full and detailed specifications of the equipment offered by you should be furnished in your tender, which should be accompanied by drawings showing the dimensions of the materials.

The price to be quoted should be for delivery f.o.b., Foreign Port and c.i.f., Madras.

This enquiry will close on the 25th February 1940.

No. S. P. C. 19560-62, *dated* 18*th December* 1939.
